IKONICS IMAGING LAUNCHES NEW WEBSITE

DULUTH, MN - IKONICS Corporation (NASDAQ:IKNX), a Duluth-based imaging technology company, announced the launching of its new website for the company's IKONICS Imaging Division.

The newly redesigned site, www.ikonicsimaging.com, is a valuable source for product information and technical data. Incorporating four key components to the redesign—enhanced e-store, search engine optimization (SEO), navigation, and overall design—the IKONICS Imaging site is dramatically improved.

IKONICSImaging.com features a user friendly e-store, printable product literature including MSDS sheets, the latest news, trade show events, schools, industry links and more. Visitors can view technical articles, sandcarving FAQ's and troubleshooting tips, as well as contact the technical support staff via e-mail.

"With the new website, we wanted to create a stronger internet presence and expand the variety of services and information we provide on-line," said Craig Kubasta, IKONICS Imaging Sales Manager. "We are now able to provide our customers with sales and technical support 24 hours a day."

IKONICS Imaging is the leading manufacturer and supplier of photoresist films, including wash-out films R3™, R5™ and RapidMask® the world's only dry processing photoresist. Discover these films and the most innovative line of sandcarvers; CrystalBlast™ Elite, Pro, and Pioneer at www.ikonicsimaging.com.
