LaserTape™

sandcarving film

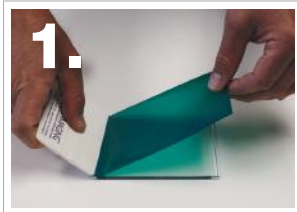

Apply. Laser. Blast.

LaserTape allows you to use a laser engraving machine in correlation with a sandblast cabinet. LaserTape creates low cost stencils while allowing you to achieve the finished look of sandblast engraving.

- No PVC
- Fast and simple clean up
- Quick burn
- Easy to colorfill after sandblasting
- Conforms smoothly to surfaces without wrinkling
- Available in 4 mil

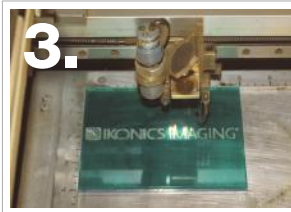

How LaserTape works...

1. Apply the LaserTape to substrate and squeegee out air bubbles and wrinkles.

2. Remove protective carrier.

3. Laser image into LaserTape. Suggested laser settings are 80% power, 100% speed. Settings may vary.

4. Sandblast image to required depth. Colorfill or finish as desired.

5. For easy removal of mask, simply peel or soak in water.

LaserTape™ Sandblastable Laser Mask
