IKONICS Imaging® Announces Engraver Select™ Line of Fine Quality Crystal Trophies and Awards

DULUTH, MN – IKONICS Imaging, an IKONICS company, announces the Engraver Select glass collection; the finest and most versatile collection of crystal products offered to engraving professionals in the Awards & Recognition industry.

Handcrafted, using a combination of traditional and modern techniques, imported from Europe and beyond, every piece in the Engraver Select line is available in multiple sizes for easily tiered presentations.

Among the premier brands in the Engraver Select roster is the world-renowned Krosno® non-lead crystal, ultimate in quality, style, sophistication and utility. IKONICS Imaging proudly serves as a premier U.S. distributor of Krosno and other brands in the Engraver Select line to engraving professionals throughout the Awards & Recognition industry.

Peter Norman, Sales Manager for IKONICS Imaging said, “The Engraver Select glass line allows IKONICS Imaging’s customers an additional option of crystal surfaces to showcase etched logo’s, commemorative inscriptions, highlighting the artistic expression that characterizes this industry. The Krosno line of crystal represents keepsake items to be admired and treasured along with items with practical utility that can be used on a daily basis and cherished for generations.”

Norman concluded, “For IKONICS Imaging to be able to offer world-class Krosno crystal to engraving professionals in the Awards and Recognition market is the latest example of our commitment to remain the total solution supplier to this industry.”
