CHROMALINE® Reformulates PC 787

DULUTH, MN – Chromaline Screen Print Products, a division of the IKONICS Corporation, announced today the introduction of reformulated **PC 787**—a Universal Photopolymer Direct Emulsion within the Image Mate™ line of screen printing emulsions.

“At Chromaline Screen Print Products, we are committed to continual improvement of our products and service,” said Michael Skrbich, Chromaline’s Division Manager, North America. “The reformulation of **PC 787** is a perfect fit for the Image Mate product line, providing consumers an advanced emulsion to create the quality, trouble-free screens they have come to expect from Chromaline.”

Featuring very fast dry times, high stencil buildup and extreme durability to withstand long print runs, **PC 787** is available in 5 gallon, 1 gallon and 28 ounce sizes. For more information contact Chromaline Screen Print Products at 800-328-4261 or visit www.chromaline.com.

Chromaline Screen Print Products is a developer, manufacturer and worldwide marketer of photochemical imaging systems. Chromaline is a leading supplier of photo stencil films, emulsions, screen preparation products and inkjet artwork media for the screen printing industry.
