# **Section 5 - Firefighting Measures**

## 5.1 Extinguishing media

| Suitable Extinguishing | • SMALL FIRES: Dry chemical, CO2, water spray or regular foam |  |
|------------------------|---|--|
| Media                  | LARGE FIRE: Water spray, fog or regular foam.                 |  |
| Unsuitable             | No data available   |  |

#### Extinguishing Media

Firefighting Procedures • Fire fighters should wear complete protective clothing including self-contained breathing apparatus.

Keep unauthorized personnel away. Ventilate closed spaces before entering. LARGE FIRES: Use extinguishing agent suitable for type of surrounding fire.

#### 5.2 Special hazards arising from the substance or mixture

Unusual Fire and<br/>Explosion Hazards• Material may burn, but does not ignite readily.Hazardous Combustion<br/>Products• Products of combustion include: carbon oxides (COx).

## 5.3 Advice for firefighters

• Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.

Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.

Wear positive pressure self-contained breathing apparatus (SCBA).

## Section 6 - Accidental Release Measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions
 Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
 Emergency Procedures
 No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended. Use normal clean up procedures.

#### **6.2 Environmental precautions**

• No data available

## 6.3 Methods and material for containment and cleaning up

Containment/Clean-up
 Use appropriate Personal Protective Equipment (PPE)
 Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in suitable container.

## 6.4 Reference to other sections

• Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

## Section 7 - Handling and Storage

#### 7.1 Precautions for safe handling

• Use good safety and industrial hygiene practices.

#### 7.2 Conditions for safe storage, including any incompatibilities

- Storage
- Keep container closed when not in use. Store away from extreme heat. Do not freeze. Ventilate enclosed areas.
- 7.3 Specific end use(s)
  - Refer to Section 1.2 Relevant identified uses.

# **Section 8 - Exposure Controls/Personal Protection**

## 8.1 Control parameters

## **8.2 Exposure controls**

Engineering Measures/Controls • Local exhaust is recommended but not required. Provide adequate ventilation as necessary.
